Carrier India

Carrier is a part of UTC Building & Industrial Systems, a unit of United Technologies Corp.(UTC), a leading provider to the aerospace and building systems industries worldwide. UTC was ranked at 151st position in Fortune 500 list of global corporations in 2014.

Built on Dr. Willis Carrier's invention of modern air conditioning in 1902, Carrier's research, expertise and innovation have resulted in market leading solutions. We recognize the vital importance of maintaining a responsible balance between the comfort we create today and the world we live in tomorrow. Millions of people trust Carrier's leadership in delivering efficient solutions. To know more, please visit http://www.carrier.com.

Over the years, Carrier India has significantly contributed in promoting sustainability. Carrier is the only company in the world to be a founding member of the Green Building Councils of the U.S., Argentina, China, India, Singapore and France. In fact, Carrier was instrumental in launching the U.S. Green Building Council® (USGBC) in 1993 and was the first company in the world to join the organization.

It invests in R&D resources to advance energy efficiency, ozone layer protection and low global AdvanTE³C Solutions Center is a natural evolution of Carrier's approach to sustainability and supports customers around the world in developing strategic, energy-efficient and custom-engineered building solutions.

Carrier's efforts in promoting sustainability can be quantifiably measured by means of the Carrier CO2NSERVATION Meter, which meticulously calculates the avoided greenhouse emissions with the help of Carrier products, globally since 2000. To know more about the Carrier CO2NSERVATION Meter, please visit http://www.naturalleader.com.

ACE(Achieving Competitive Excellence) is our proprietary operating system to ensure world-class quality in our products and processes. With its relentless focus on increasing efficiency and reducing vaste, ACE is integral to the company's performance model. The company's facilities worldwide are using the operating system to improve quality and customer satisfaction while lowering cost.

Carrier's presence in India dates back to 1986, when Carrier India was established. In the year 1988, the first manufacturing facility was commissioned in Gurgaon, Haryana. Spread in an area of 19 acres, this state-of-the-art facility consists of highly automated manufacturing unit, an excellent R&D Center and an advanced Quality Clinic. Currently, products manufactured in this facility include Cassettes, Ducted Splits, Package Units, Air Cooled & Water Cooled Screw Chillers, Air Cooled & Water Cooled Reciprocating Chillers, Fan Coil Units, Air Handling Units, Refrigeration products and Fire & Security products.

Snapshots of Carrier India manufacturing facility

Our comprehensive Environment, Health & Safety (EH&S) program establishes a framework and provides tools for implementing our EH&S practices into our business & culture. The Carrier Gurgaon facility holds a distinctive record of delivering over 17 million man hours without a lost work day incident, clearly citing the measures of safety followed here.

Carrier India has 14 sales and service offices, more than 800 sales and service channel partners - throughout the country, ensuring efficient solutions and quality services at customer's doorstep. To know more visit http://www.carrierindia.com.

ogue provides certain general information and is intended for general guidance only and Carrier is not liable for any damage arising out of the use of the catalogue facturer reserves the right to change any product specification without prior notice

FEATURES AND BENEFITS

Wide Water Inlet Temperature range

Cooling mode: 3°C ~ 20°C • Heating mode: 30°C ~ 70°C • Dry mode: 3°C ~ 20°C

Economic Running Mode

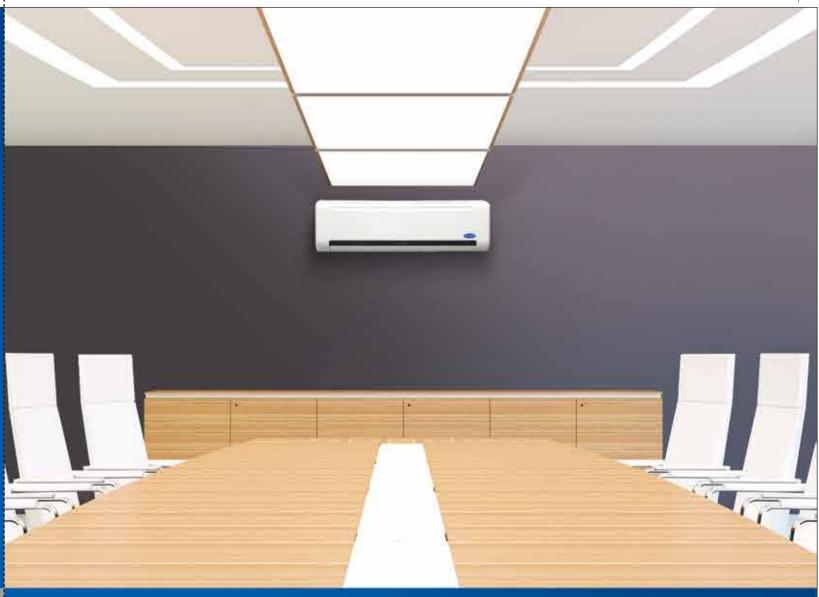

Capable of saving large energy bills by running the unit on energy saving mode

It sets ON/OFF timer as per user's requirement and adds to user's convenience

Dry Mode
Improves IAQ (Indoor Air Quality) and provides quick moisture removal in case of humid & sultry surroundings

FEATURES AND BENEFITS

Silent Operation

Cross flow fans in the unit provide quiet and comfortable environment

Easy Maintenance

The front panel of the unit is easily removable providing easy access and hence easy maintenace

Multi Connection Outlet Pipe

Outlet pipe connections available at the left, right and rear side of the unit. This enables the unit to satisfy the needs of different rooms

Air cleaning equipment and high efficiency filters keep the air inside the room fresh all the time

WIRELESS REMOTE CONTROLLER

Features

- -LCD display
- -Decrease temperature button
- -Increase temperature button
- -ON/OFF button
- -Mode selection button
- -Economical running button
- -Reset button
- -Lock button
- -Swing button
- -Louver control button
- -Auto ON/OFF timer

Wired Optional

R05/BGE
